Santa Fe, New Mexico 87505

RE: Vertical Clearance Route Surveys

Major Cordova:

The New Mexico Department of Transportation (NMDOT) requests that Motor Transportation Department require route surveys on all oversized permits of 15 feet 6 inches or higher. Recent bridge clearance measurements performed by NMDOT have found a large number of bridges, including many on the interstate system to have clearances less than what they are posted for. We are working on a program to correct this issue.

If you have further questions call me at (505) 827-5457.

Sincerely,

Jeff C. Vigil
State Bridge Management Engineer
